## \$50,000.00 KENTUCKY DERBY

Will Be Run at Churchill Downs, Louisville, Saturday, May 13th

Morvich, the Champion of Last Season, and a Large Field of Other High Class Three Year Olds, Will Be Among the Starters For the Greatest Stake in America

The forty-eighth renewal of the Kentucky Derby, which will be run at Churchill Downs, Louisville, Saturday, May 13th, promises to be the most interesting in the long history of this famous race. This year the Kentucky Jockey Club has added \$50,000, and a \$7,000 gold service to the winner, making it in point of value the richest, as it always has been the most sought after three-year-old stake in America. There clusters around the Derby all the memories and the romance that make the turf so alluring and that enshrine Churchill Downs in the hearts of half a century of race lovers.

Beginning with Aristides, the first winner, and continuing through an immortal roster of thoroughbred kings, public interest in the Derby has increased every year until to-day the names of the contenders are household words, and their respective merits are subject of arguments that will not cease until the number of the winner is hung out on May 13th.

The outstanding favorite this year is Benjamin Black's Morvich, which finished his two-year-old career by winning every race in which he started, beating all his competitors with an ease that marks him as a colt of surpassing speed and quality, approaching, if he does not equal, Man o' War. Morvich is training at the Jamaica race track, New York, where his trials are phenomenal. He will probably start in the opening handicap at Jamaica and will be shipped immediately thereafter to Churchill Downs where he will receive his final workout for the Derby.

The prowess of Morvich has not discouraged the owners of other Derby candidates and there will be a field of from twelve to fifteen horses to contest with the champion for the \$50,000 stake and its accompanying \$7,000 gold souvenir. Among the number are Harry Payne Whitney's Olympus, a recent winner at Havre de Grace, over

## SWIFT PRODUCE REVIEW

Production of butter is showing a gradual increase, but as the demand has been unusually good, markets have advanced further. The rains we have had should make better pastures, so that from now on production will increase rapidly, and the tendency of the market will be to work to a lower level.

The surplus of eggs in the local markets this past week has been extremely low, and for that reason the amount going into storage has increased materially, causing the market to work to a lower basis. Storers, as a rule, expect to buy May eggs cheaper than April's and the immediate prospects are that prices will show further decline.

Live poultry has been moving in normal quantities for this time of the year, but the demand for dressed poultry stock is improving and the tendency of the market is higher.

## Discounting The Count

A COUNT used to be a man in charge of a count of 500 persons to whom he was a sort of overlord. This is not true today because of altered political conditions. We still have Counts, but the Count business has somewhat changed.

Business, of all kinds, has undergone something of a revolution. It was not so many years ago that pack peddlers were the sole distributors and transporters of many of the household articles of the day. Their legs set the limit for most distribution problems of those days. Modern transportation, progressive sales methods—and advertising have broken the shackles of time. They make a speedy job of what used to take years. Through advertising many an article has been introduced simultaneously in stores all over the country.

Advertising today is the method used by business to tell you why you should have certain goods and how to identify those goods. The advertisements you find here are a truthful catalog of needed merchandise. Articles of all kinds and for all purposes are presented in a pleasant way through the medium of type and picture. The outstanding requirements of every member of the family are met by offers of good merchandise of proved value.

Use the Advertisements for Guidance and you will be a constant gainer.
